

B. DRAWINGS

Formal drawings are submitted herewith. The drawings filed in the application, although informal, are believed to be complete. A typographical error on Figure 6, erroneously labeling it as Figure 12, may have created an impression that some drawings were missing. However, this error is corrected in the formal drawings submitted herewith. The drawings will be submitted separately to the Official Draftsman upon approval of the Examiner in this case.

Figure 1 is amended to omit element 8 which was not referred to in the specification.

The label "Figure 12" is changed to --Figure 6" in sheet 2.

In Fig. 3, packet handling circuitry 2 is more clearly identified, and the location of packet handling circuitry is modified to correspond to Fig. 1 as originally filed.
